Hello,

On your database:

https://www.biographies.net/people/en/ioannis_galidakis

This is not Ioannis Galidakis. The photo is a fraud. Whoever sent you this photo and created this page is infringing on my name and profession, for fame-grabbing reasons.

I've already added a comment below the page about this and it was removed(!) 20 minutes ago.

The same person had a similar entry on Ranker.com. One week ago I contacted Ranker and requested that they make a correction or remove the page. The page was removed promptly. Today it showed on your website.

Please remove this entry from your database. The person who created this page is playing you with identity fraud, trying to gain popularity using my name.

Sincerely,
Ioannis Galidakis
Mathematics and Celestial Mechanics lab,
Agricultural University of Athens.
